

Volunteer

Volunteering in your community can benefit you in many ways. College admissions and scholarships lean toward students who have been active volunteers. A great way to find volunteer opportunities is to go to www.volunteermatch.org, then type in your zip code and it will find list sites to volunteer at within a 20 mile radius of your home. Look for the code T=teen.

*****Remember to keep track of your volunteer hours and a supervisor contact for scholarship applications! *****
